

## Speed Networking International!

*Drinks, dinner and a new conversation every 4 minutes!*

### **Description:**

After drinks, appetizers and introductions in a casual French bistro, attendees pair up in rows. Led by a moderator, each person has 4 minutes to get to know the international professional sitting across the table. You can ask the other person questions about their job, or share info about your own company, product or professional needs—it's up to you!

Have something in common? Great! You can continue the conversation at leisure afterward. Not a good fit? No problem! At the sound of the bell, you slide over a seat, and begin again. Fun, fast-paced, surprisingly effective.
